Dear Breweries and Brewers in Nova Scotia,

We are writing to inform you of a date change to our FemmeBot Beer Festival. The dates we pick coincide with Fredericton Craft Beer Festival and we don't want to overlap. Our new dates are during NS Craft Beer Week, which we think will be a great fit for the programming. Each year during the week of *International Women's Day*, Good Robot celebrates the women and femme identified folks in our life and brewery with some special events. This year we begin our first annual FemmeBot Beer Festival. This festival will highlight Women Identified Brewers locally and in the Maritimes.

We would like to invite you to attend the festival by:

- Bringing a few types of beer/cider to the festival that have been brewed by women in your brewery

and/or

- Challenging your brewery (if you haven't already) to brew some beer/cider with women and presenting your product at the festival

We would like to invite any Brewery to attend who is interested - and the above is the only criterion. We look forward to some new beers to try together!
